

I am writing regarding K-Love radio on (90.5 FM in my area) I enjoy it's programming each and every day. If LPFM were to expand and replace the option for K-Love to be transmitted, I, my husband and importantly, my children would not have the opportunity to hear the encouraging words and music we currently hear on K-Love.

I have lived in other cities which were large enough to support their own Christian radio station, but Des Moines/Urbandale is not able to support a station like K-Love on its own. There are \*MANY\* areas of the country in a similar situation. Please don't jeopardize our ability to support and thereby be able to hear K-Love's programming.
